

DIXIE COUNTY HIGH SCHOOL

ADEQUATE YEARLY PROGRESS REPORT

Measuring Adequate Yearly Progress (AYP) To Meet Requirements of "No Child Left Behind" (NCLB)
 The No Child Left Behind Act requires states to evaluate the performance of all students in all schools in order to determine whether each school and district has made adequate yearly progress (AYP). Specific criteria for AYP evaluation are described below. All schools that do not make AYP are identified. School districts are responsible for identifying Title I schools that fail to make AYP in consecutive years as schools in need of improvement. For the 2008-09 school year, requirements for school improvement apply to Title I schools that did not make AYP in 2006-07 and 2007-08.* Students attending these schools are eligible for public school choice options for the 2008-09 school year. Title I schools that fail to make AYP for more than two consecutive years are required to provide additional services to students and to implement defined strategies for improving school performance.
 * AYP results are evaluated separately for mathematics and reading in determining whether proficiency targets were missed in consecutive years and in targeting areas for improvement.
 Each school's AYP determination is based on measures of the performance of the overall student population as well as that of students in defined subgroups: racial/ethnic groups (Am. Indian, Asian, black, Hispanic, and white); students eligible for free/reduced-price lunch; English Language Learners (ELL) students; and students with disabilities.

AYP Criteria for Florida's Public Schools

. Participation in Testing

Schools must have tested at least 95 percent of students in each subgroup where 30 or more students are enrolled.

. Writing Proficiency

Schools in which less than 90 percent of students are proficient in writing must show an increase in the percentage of proficient students over the previous year. Students demonstrate writing proficiency by scoring 3 or higher (on a scale score of 1 to 6) on the FCAT Writing examination, or, for ELL students and students with disabilities, by attaining a proficient score on an alternate assessment.

. Graduation Rate

High schools with a graduation rate less than 85% must show improvement in the rate over the previous year.

. School Performance Grade

The school performance grade must be other than a D or F.

. Reading Proficiency and Math Proficiency

Schools must attain proficiency targets in reading and mathematics for each subgroup in which at least 30 students are enrolled. Students attain proficiency in reading and mathematics by scoring at Level 3 or higher (on a range from 1 to 5) on FCAT Reading and FCAT Mathematics, or, for ELL students and students with disabilities, by scoring at proficient levels on alternate assessments for reading and math. For 2007-08, AYP proficiency targets for all subgroups are as follows: 62 percent of students proficient in mathematics; 58 percent proficient in reading.

15-0021

ADEQUATE YEARLY PROGRESS REPORT

Safe Harbor Provision

Schools not meeting reading and math proficiency targets for subgroups may still make AYP through a Safe Harbor provision if the following conditions were met for subgroups missing the targets:

- 1) At least 95% of students were tested.
- 2) The percentage of non-proficient students in the subgroups(s) decreased by at least 10 percent from the prior year.
- 3) The percentage of the subgroup's students who tested proficient in writing increased.
- 4) The graduation rate of students in the subgroups(s) increased (high schools).

The latest information on AYP can be accessed online at schoolgrades.fldoe.org/default.asp.

AYP Status, 2007-08 (Indicates status prior to the end of the appeals period.)

The table below shows the AYP status of the school, district, and state for the 2007-08 school year. Data used to calculate AYP for 2007-08 includes FCAT data for 2007-08 and 2006-07, graduation rate data for 2006-07 and 2005-06, and the school performance grade assigned in 2008.
