

Description:

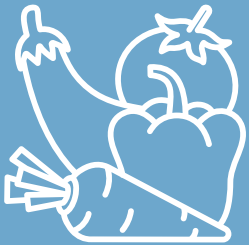

Agriculture courses are designed for instruction in career exploration, animal science, agricultural mechanics, leadership, personal development, and supervised agricultural experience. Agriculture encompasses the food, fiber, conservation and natural resource systems. An understanding of careers, leadership, and basic principles in the animal industry provides a sound background for the agricultural industry.

Program Goal:

The Agriculture Program offers students classroom and hands-on experience, leadership development through involvement in the National FFA Organization, and experiential learning through Supervised Agricultural Experiences. Participation in the agriculture program gives students a solid foundation on which to build a career.

Courses:

- Agriculture Foundations
- Animal Science and Services II
- Animal Science and Services III

Industry Certifications Options:

- Agriculture Systems Associate
- Agriculture Associate
- Agritechnology Specialist
- Animal Science Specialist

Career Opportunities:

- Agronomy Specialist
- Lab Technician
- Equipment Sales/Mechanic
- Meat Manager
- Veterinarian
- Game Warden
- Farm Business Manager
- Livestock Inspector
- Feedmill Manager
- Animal Nutritionist
