

Description:

The Hospitality and Tourism program teaches students the management skills necessary to give them a competitive advantage when pursuing a role in hospitality. Career readiness skills, like problem solving, accountability, teamwork, and communication in the context of a hospitality workplace are applied throughout the course in hands-on activities and collaborative projects .

Program Goal:

Generate interest in and provide a foundational understanding of hospitality segments and the world of career opportunities within the industry.

Present students with both career readiness and position-specific skills that will help them get started in the industry and set them on the path to success.
